## FUNDHOUSE TFSA CAPITAL GROWTH A

31 May 2022

## OBJECTIVE

This TFSA compliant portfolio has been constructed to maximise capital growth to investors through investment in local and offshore equities. Listed property will also be utilised and there will be minimal amounts of cash over time. Globally the portfolio may invest in both developed and emerging market equities to maximise returns, and as such total volatility levels will be high, with potential for substantial capital drawdowns. Returns are earned in rands, so the offshore holdings will also experience currency volatility.
